To Whom It May Concern:

Your proposed requirement that all "contraceptives" and sterilization procedures be covered free by private health insurance is harmful to private insurers. It will, along with other mandates in Obamacare, drive them out of business.

I find it strange that you exempt "religious employers" but not workers who have moral objections against certain procedures and drugs.

I am one of millions of Americans who oppose Obamacare and am striving to have it rescinded.

Sincerely,
John Takeuchi
